

## Microbial Ecosystems

With Diane Catron & Pam Dresher

**April 7, 2018** from 9:00-12:00

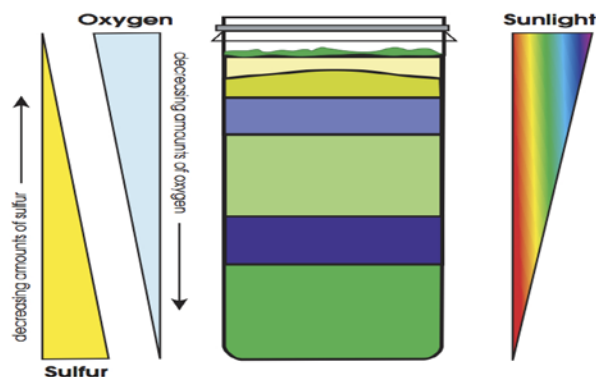

Coffee & Sign-in at 8:30 a.m.

What role do microbes play in an ecosystem?

What can we learn from microbes to support our understanding of ecosystems?

Come join fellow teachers to explore the world of microbes and construct an ecosystem. Learn how to turn a straightforward science experiment into an inquiry investigation through the use of these mini environments.

Geared for Grades 4-8 teachers.

Please come for coffee and conversation at 8:30 am.

Aligned to the NM Science Standards and the  
National Research Council's Framework for K-12 Science Education
