# Wondrous Weeds Around You!

With MOLLIE PARSONS at the SANTA FE BOTANICAL GARDEN

**October 14, 2017**

**8:30-12:30**

Santa Fe Botanical Garden's Mollie Parsons presents this workshop helping you experience and connect literacy, science and nature!

You will look closely at 'weeds' to gain an appreciation for what makes them so resilient and beautiful.

Through children's books, scientific tools, and more you will learn together with experienced garden and science educators.

Every schoolyard has weeds that can serve to inspire and deepen your curriculum in fun and surprising ways.

- *Aligned to the NM Science Standards and the National Research Council's*
- *Framework for K-12 Science Education*

*To Register: Go to Santa Fe Public Schools - My Learning Plan*

**Santa Fe Botanical Garden • 715 Camino Lejo • Santa Fe 87505**
