

# What Do Scientists Do?

**You are a scientist each and every day.**

<p>A scientist is a person who asks questions and tries different ways to answer them.</p>	<p>A scientist learns from his senses.</p>	<p>A scientist notices details.</p>	<p>A scientist draws and labels what she sees.</p>
<p>A scientist writes about what happens.</p>	<p>Your special sentence.</p>	<p>A scientist must count exactly.</p>	<p>A scientist designs experiments to test predictions.</p>
<p>A scientist collaborates with others.</p>	<p>A scientist shares information with small and large groups of scientists.</p>	<p>A scientist experiments by trial and error.</p>	<p>A scientist thinks logically.</p>
<p>A scientist keeps trying over and over.</p>	<p>A scientist has fun.</p>	<p>A scientist builds models.</p>	<p>A scientist makes comparisons by measuring.</p>

**Write in one box each day what you are doing as a scientist. You can fill in the boxes in any order.**
